Mention:

- NACD VIP Invitation
- Attending all three days or Thursday only
- Bringing a director or C-level colleague

Fee: Complimentary

### The Event

An inaugural event to convene thought-leaders, experts, and senior decision-makers from industry, government, and academia to discuss cybersecurity and the evolving threats to critical infrastructure.

This event will foster the development of high impact strategies to address the many interrelated cybersecurity challenges we face in the protection of our nation's critical infrastructure.

### Keynotes

- **Admiral Mike Rogers**  
 Commander, United States Cyber Command;  
 Director, National Security Agency
- **John Launchbury**  
 Director, Defense Advanced Research Projects Agency  
 (DARPA) Information Innovation Office
- **James Scott**  
 Senior Fellow, Institute for Critical Infrastructure Technology  
 Author, *The CEO's Manual on Cybersecurity*

### Panels

- Evolving Threats to Energy and Critical Infrastructure
- Emerging Technologies to Address Current and Future Threats
- Policy Innovations to Address Current and Future Threats
